

TAKING VISION TO REALITY TAKES YOU

Through creation of our Vision 2020 plan, the Town of Taos has made much progress towards managing the challenges of growth. We've made clear our commitment to protecting the valued character and environmental resources that make Taos so special, increasing our economic opportunities, and ensuring an inclusive and soulful place for all of our citizens.

IT'S NOW TIME TO TAKE THE NEXT STEP.

One challenge facing implementation is our current zoning and development code, which is not necessarily the best tool for pursuing the goals of Vision 2020. That's why the town has engaged the Albuquerque-based firm, PlaceMakers, to tailor an alternate approach — called the SmartCode — specifically to Taos.

THIS PROCESS REQUIRES YOUR HELP.

To ensure we make the most of our September 17-21 "charrette" workshop, where citizens will work directly with PlaceMakers to tailor the code, we're holding an advance, educational seminar where everything about the SmartCode — how it works, how it differs from our existing zoning, and how it will impact the type of growth and development we see here in Taos — will be explained in detail.

All are welcome. Please join us.

Friday, August 17th
8:30am to 3:30pm
at the Rio Grande Hall
121 Civic Plaza Drive

For questions, please contact Matthew Foster, Town Planner, at 505.751.2037
